

Q1 2009 RESULTS PRESS RELEASE**PLAISIO COMPUTERS SA****OUTSTANDING SALES AND MARKET SHARE GROWTH ALONG WITH INCREASE IN PROFITABILITY**

The consolidated sales for Q1 2006 of PLAISIO COMPUTERS reached 76,3 m. €, achieving an increase of 21,5% despite the presence of all the international competitors in the Greek market. The Group increased its market share in the Greek market, accomplishing higher growth rate than the one realized in the Q4 2005, which was 14,9%.

The consolidated profits after taxes reached 1,48 m. € achieving an increase of 3,49%, while the profits after taxes of the parent company achieved an increase of 15,42% reaching 1,63 m €.

The difference in profitability between the Group and the parent company can be explained by the development of the new investment of PLAISIO COMPUTERS in Bulgaria, which according to the management's estimates, will turn to profitability within the first three years.
